**Emergency Assistance: Terms & Conditions** The Jayco Roadside Assistance has been designed to provide emergency assistance whilst travelling and away from home. Emergency is defined as a situation during transit requiring immediate assistance and/or transport to the nearest Jayco service agent or similar. The program is largely in conjunction with the terms and conditions of our warranty guarantee to assist and support our customers as needed whilst on the road. All possible assistance will be extended with each call out and direction to a Jayco authorised dealership or repair agent for further assistance. In some instances and depending on availability of support services, initial costs may be incurred and charged by third party contractors and suppliers. Any costs in addition to the standard reimbursements as detailed below, may be claimable for reimbursement at a later date by contacting Jayco direct. Any claims for reimbursement will be individually assessed and will take into consideration the terms and conditions of the Jayco warranty. Generally speaking, any costs incurred as a result of a user error may not be claimable for reimbursement.
